

Rohan P. Suresh

Full Stack Developer

+91 8921355003 · rohanpsuresh@gmail.com · Kottayam, Kerala · [linkedin.com/in/rohanpsuresh](https://www.linkedin.com/in/rohanpsuresh) · github.com/rohanps630

PROFESSIONAL SUMMARY

Full Stack Developer with 4.75 years of experience building scalable web and mobile applications. Strong expertise in React, React Native, Next.js, NestJS, and Django, with a focus on performance, maintainable architecture, and seamless user experience. Experienced in API design, real-time systems, AI integration, and cloud deployments. Contributed to end-to-end product development, including feature ownership, code reviews, and mentoring developers.

CORE SKILLS

Client-Side & Mobile: Kotlin, Swift, JavaScript, TypeScript, React.js, Next.js, React Native, responsive UI design, accessibility, performance tuning

Server-Side & APIs: Python, Node.js, Go, NestJS, Express.js, Django, RESTful APIs, WebSockets, real-time architecture

Data & Infrastructure: MongoDB, PostgreSQL, Docker, Nginx, CI/CD (GitHub Actions, Bitbucket Pipelines)

AI & Advanced Tools: Google Agent Development Kit (ADK), Generative AI integration, LLM APIs (Gemini, ChatGPT), Vector Databases, agent loops, RAG

Security & Workflow: JWT, OAuth, RBAC, Caching strategies, Git, Agile methodologies (Scrum, Kanban)

PROFESSIONAL EXPERIENCE

Software Engineer — Innovation Incubator Advisory, Trivandrum

Jun 2025 — Present

- Working on scalable web/mobile solutions with focus on performance and architecture
- Integrating Google ADK and generative AI into product workflows
- Contributing to product design, development, and optimization
- Collaborating across teams to deliver production-ready features

Full Stack Developer — Elsys Intelligent Devices Pvt Ltd, Trivandrum

Aug 2023 — May 2025

- Led a team of developers across frontend, backend, and AI integrations
- Redesigned key modules, improving user engagement by ~20%
- Built high-performance React.js applications with optimized rendering
- Developed cross-platform mobile apps using React Native
- Mentored developers and enforced clean coding and review practices

Full Stack Developer — JitTech Technology Services, Trivandrum

Jul 2021 — Jul 2023

- Built scalable backend services using Node.js and NestJS
- Developed web apps using Next.js and Django with clean API integration
- Implemented real-time features using WebSockets and push notifications
- Delivered cross-platform mobile apps with consistent UX

KEY PROJECTS

AI Code Reviewer

2026 · github.com/rohanps630/ai-code-reviewer

Autonomous agent that reviews GitHub PRs with hybrid retrieval (BM25 + pgvector + cross-encoder rerank), hand-written tool-use loop, and a real eval suite over historical OSS PRs. (TypeScript, Next.js, Python, Anthropic Claude, Voyage, Cohere, pgvector, Langfuse)

AI-Powered Automation Hub

Intelligent platform for automated customer support and lead generation with Twilio voice agent integration. (React, NestJS, MongoDB)

Accessible Real-Time Chat System

Designed for individuals with speech and hearing impairments, with text-to-speech capabilities for enhanced communication. (React Native, WebSockets)

Interactive Learning Portal

Cross-platform educational ecosystem where the web app provides the full feature suite and the mobile version is tailored for student activities. (React, React Native, Node.js, MongoDB)

Roofing Industry CRM

Mobile solution for managing job workflows, tracking project progress, and generating invoices. (React Native)

Transit Claim Reporting System

Mobile app streamlining communication between furniture restoration companies and claims adjusters with efficient status tracking. (React Native)

Dental Clinic Management System (HMS)

Healthcare management solution for small/medium dental clinics — scheduling, EHR, and billing workflows. (React, Go, PostgreSQL, Kotlin)
